Education

Ramaiah Institute of Technology, Bengaluru

2022 – 2026

Bachelor of Engineering in Electronics and Communication

Experience

Web Development Intern

Oct 2023 – Nov 2023

Ramaiah Institute of Technology, Bengaluru

- Developed responsive web applications using HTML, CSS, JavaScript.
- Designed and implemented RESTful APIs using Node.js and Express.js enabling CRUD operations and structured routing.
- Integrated backend services with MongoDB and MySQL databases with proper schema design and query optimization.
- Implemented JWT-based authentication and middleware for secure API access.
- Tested, validated, and debugged APIs using Postman; improved response efficiency and reduced API errors.

Skills

Programming Languages: C, C++, JavaScript, SQL

Backend Development: Node.js, Express.js, REST APIs, Middleware, CRUD Operations, API Integration

Frontend Development: HTML, CSS, JavaScript

Databases: MongoDB, MySQL

Tools: VS Code, Postman

Core Computer Science: Data Structures and Algorithms, Operating Systems, DBMS, Computer Networks, OOP

Soft Skills: Strong Communication, Problem Solving, Team Collaboration, Adaptability, Critical Thinking

Projects

Cachify – Multithreaded Proxy Forward Web Server (C++)

2024

- Built a multithreaded HTTP proxy server using C++ with pthreads and semaphores.
- Implemented LRU-based caching mechanism to optimize response latency.
- Applied OS-level synchronization, socket programming, and HTTP parsing concepts.

Automated Data Fetch and Autofill System

2025

- Developed an automated system to fetch verified student data from a MySQL database and autofill academic forms.
- Implemented backend logic using JavaScript and REST APIs to retrieve, validate, and populate form data dynamically.
- Reduced manual data entry, improved data accuracy, and streamlined institutional documentation workflows.

Breast Cancer Classification System (Deep Learning)

2025

- Built ensemble CNN models using DenseNet121, ResNet50, and EfficientNet-B0.
- Applied transfer learning and Grad-CAM for model interpretability.
- Improved diagnostic classification performance on medical dataset.
